Proposal for Static Website Designing

Greetings from JELLYSOFT. This quotation covers an overview of Static Web Designing Services & Pricing...

JELLYSOFT is one of the Leading Static Website Design Company in Tuticorin Tamilnadu. With a huge client base in Tamilnadu and across India, we have expertise in working on Static Website Design project in every domain. Whether you are a Start-Up, Small, Medium sized company or a well-established Organization. We are the perfect destination for all your Static Website Design Needs. We have a team of Professional Web Designers who have

expertise in designing unique websites integrated with excellent features. The main motive of our team is to provide the best to ensure your success.

What is Static Website:

A website is the most advanced medium to focus on your potential site visitors and convert them to your customers. The Static website is a basic Website that contains 4-5 web pages with fixed contents. These pages are coded in HTML, it displays the same information to all the visitors every time. Static sites are the most basic type of website and it is very easy to create. A static site can be built by simply creating a few HTML pages and publishing

them to a Web server. Since static Web pages contain fixed code, the content of each page does not change unless it is manually updated by the owner. This works well for small business.

How Static Website is Essential for your Business Growth:

A Static Website Designing is the simple way to display your business or product online. The best thing about having a static website is that can showcase all products and services in easy access to visitors. Designing a Static Website is usually cheaper than a dynamic one. It is a cost effective and affordable solution for Small & Medium Business. Static Websites require less time in the design and development process. Static Websites do not need regular modifications. Hosting of Static Websites is

simple and it has low maintenance cost. Static websites are very user-friendly and best suited for small sized businesses.
